Subject index

Acetaldehyde
Dissociative adsorption of acetaldehyde on Pt (*h*,*k*,*l*) basal surfaces (Cases et al.) 283
Alizarin complexone
On the adsorption voltammetry of the lanthanum(III)–alizarin complexone–fluoride system (Jin et al.) 221
Amphiphilic affinity
Electrosorption of amphiphilic affinity dyes at liquid/liquid interfaces for biosensor applications (Wiles et al.) 231
Aromatic halides
Redox catalysis when the solvent itself plays the role of an electron carrier. Case of the indirect reduction of aromatic halides in benzonitrile (Simonet et al.) 289

Benzonitrile
Redox catalysis when the solvent itself plays the role of an electron carrier. Case of the indirect reduction of aromatic halides in benzonitrile (Simonet et al.) 289
Benzoquinone
Redox behaviour of polypyrrole films containing naphthoquinone and benzoquinone groups (Grimshaw, Perara) 125
Benzotriazole
A surface-enhanced Raman spectroscopic study of benzotriazole and 6-tolyltriazole corrosion inhibitors on copper electrodes in alkaline solutions (Aruchamy et al.) 299
Bilayers
Electroactive bilayers employing conducting polymers. Part 1. Suitability of thiophene- and pyrrole-based systems (Hillman, Mallen) 109
Biosensor
Electrosorption of amphiphilic affinity dyes at liquid/liquid interfaces for biosensor applications (Wiles et al.) 231

Carbon dioxide
Kinetics of CO_2 electroadsorption on electrodispersed platinum electrodes in acid solutions (Marcow et al.) 257
Cobalt ion
The nature of the catalytic influence of thio- and selenocyanate ions on the reduction process of Fe(II) and Co(II) cations (Winkler, Krogulec) 171
Cobalt tetrakis(*o*-aminophenyl)porphyrin
Dioxygen reduction and hydrogen peroxide dismutation using electropolymerized bilayers of cobalt + manganese tetrakis(*o*-aminophenyl)porphyrin (Bettelheim et al.) 147
Cold fusion
Experimental investigations of the electrolysis of D_2O using palladium cathodes and platinum anodes (Zahm et al.) 313
In-situ measurements of deuterium uptake into a palladium electrode using time-of-flight neutron diffractometry (Bennington et al.) 323
Tritium separation effects during heavy water electrolysis: implications for reported observations of cold fusion (Corrigan, Schneider) 305
Conical electrode
Theory of current distribution at a conical electrode under diffusion control with time dependence (Aoki) 29
Copper
Electroless copper deposition on a Pt polyfaceted single crystal (Podestá et al.) 273
A surface-enhanced Raman spectroscopic study of benzotriazole and 6-tolyltriazole corrosion inhibitors on copper electrodes in alkaline solutions (Aruchamy et al.) 299
Corrosion inhibitors
A surface-enhanced Raman spectroscopic study of benzotriazole and 6-tolyltriazole corrosion inhibitors on copper electrodes in alkaline solutions (Aruchamy et al.) 299
Current distribution
Theory of current distribution at a conical electrode under diffusion control with time dependence (Aoki) 29

0022-0728/90/$03.50 © 1990 Elsevier Sequoia S.A.

Current feedback operational amplifiers
Fast cyclic voltammetry at ultramicroelectrodes. Current measurement and ohmic drop positive feedback compensation by means of current feedback operational amplifiers (Garreau et al.) 73
Cyclic voltammetry
Fast cyclic voltammetry at ultramicroelectrodes. Current measurement and ohmic drop positive feedback compensation by means of current feedback (Garreau et al.) 73
Cyclodextrin
Cyclodextrin host–guest inclusion complexes. Electrochemical characterization of a specific interaction with α-CD (Martre et al.) 279
Cysteine
Dynamics of the electrocatalytic oxidation of cysteine at Nafion film coated electrodes (Chen et al.) 185

Deuterium
In-situ measurements of deuterium uptake into a palladium electrode using time-of-flight neutron diffractometry (Bennington et al.) 323
Deuterium oxide
Experimental investigations of the electrolysis of D_2O using palladium cathodes and platinum anodes (Zahm et al.) 313
In-situ measurements of deuterium uptake into a palladium electrode using time-of-flight neutron diffractometry (Bennington et al.) 323
Tritium separation effects during heavy water electrolysis: implications for reported observations of cold fusion (Corrigan, Schneider) 305
Dimerization
Polarographic analysis of mechanisms involving competition between dimerization and electron transfer reactions (Camacho et al.) 61
Dimethylsulfoxide
The electrochemistry of hemin in dimethylsulfoxide (Tieman et al.) 133
Dioxygen
Dioxygen reduction and hydrogen peroxide dismutation using electropolymerized bilayers of cobalt + manganese tetrakis(*o*-aminophenyl)porphyrins (Bettelheim et al.) 147

Electrodesilylation
Synthesis of organic conductors using electrodesilylation (Lemaire et al.) 293

Electron carrier
Redox catalysis when the solvent itself plays the role of an electron carrier. Case of the indirect reduction of aromatic halides in benzonitrile (Simonet et al.) 289
Electron transfer
Polarographic analysis of mechanisms involving competition between dimerization and electron transfer reactions (Camacho et al.) 61

Fluoride
On the adsorption voltammetry of the lanthanum(II)–alizarin complexone–fluoride system (Jin et al.) 221
Fractals,
Fractals and rough electrodes (de Levie) 1

Heavy water
Experimental investigations of the electrolysis of D_2O using palladium cathodes and platinum anodes (Zahm et al.) 313
In-situ measurements of deuterium uptake into a palladium electrode using time-of-flight neutron diffractometry (Bennington et al.) 323
Tritium separation effects during heavy water electrolysis: implications for reported observations of cold fusion (Corrigan, Schneider) 305
Hemin
The electrochemistry of hemin in dimethylsulfoxide (Tieman et al.) 133
Host–guest inclusion complexes
Cyclodextrin host–guest inclusion complexes. Electrochemical characterization of a specific interaction with α-CD (Martre et al.) 279
Hydrogen peroxide
Dioxygen reduction and hydrogen peroxide dismutation using electropolymerized bilayers of cobalt + manganese tetrakis(*o*-aminophenyl)porphyrins (Bettelheim et al.) 147
Mechanism of the mediated reduction of hydrogen peroxide at an electrode modified with a film containing a basic form of iridium oxide (Cox, Jaworski) 163

Iridium
A lead–iridium pyrochlore based bifunctional oxygen electrode (Kannan et al.) 339
Iridium oxide
Mechanism of the mediated reduction of hydrogen peroxide at an electrode modified with

a film containing a basic form of iridium oxide (Cox, Jaworski) 163
Iron ion
The nature of the catalytic influence of thio- and selenocyanate ions on the reduction process of Fe(II) and Co(II) cations (Winkler, Krogulec) 171

Lanthanum
On the adsorption voltammetry of the lanthanum(III)–alizarin complexone–fluoride system (Jin et al.) 221
Lead
A lead–iridium pyrochlore based bifunctional oxygen electrode (Kannan et al.) 339
Liquid/liquid interfaces
Electrosorption of amphiphilic affinity dyes at liquid/liquid interfaces for biosensor applications (Wiles et al.) 231

Manganese tetrakis(*o*-aminophenyl)porphyrin
Dioxygen reduction and hydrogen peroxide dismutation using electropolymerized bilayers of cobalt + manganese tetrakis(*o*-aminophenyl)porphyrin (Bettelheim et al.) 147
Metal oxides
Electro-oxidation of methanol on Pt electrodes modified by metal oxides and noble metals (Ohmori et al.) 331
Methanol
Electro-oxidation of methanol on Pt electrodes modified by metal oxides and noble metals (Ohmori et al.) 331
Methylene blue
Preparation of polyaniline films doped with methylene blue-bound Nafion and the electrochromic properties of the resulting films (Kuwabata et al.) 97

Nafion
Dynamics of the electrocatalytic oxidation of cysteine at Nafion film coated electrodes (Chen et al.) 185
Preparation of polyaniline films doped with methylene blue-bound Nafion and the electrochromic properties of the resulting films (Kuwabata et al.) 97
Naphthoquinone
Redox behaviour of polypyrrole films containing naphthoquinone and benzoquinone groups (Grimshaw, Perara) 125
Neutron diffractometry
In-situ measurements of deuterium uptake into a palladium electrode using time-of-flight neutron diffractometry (Bennington et al.) 323
Noble metals
Electro-oxidation of methanol on Pt electrodes modified by metal oxides and noble metals (Ohmori et al.) 331

Ohmic drop positive feedback compensation
Fast cyclic voltammetry at ultramicroelectrodes. Current measurement and ohmic drop positive feedback compensation by means of current feedback operational amplifiers (Garreau et al.) 73
Organic conductors
Synthesis of organic conductors using electrodesilylation (Lemaire et al.) 293
Oxalic acid
Electrochemical behaviour of oxalic acid on platinum electrodes in acidic medium. Pt (100), Pt (111), Pt (110) and stepped surfaces (Orts et al.) 199
Oxygen electrode
A lead–iridium pyrochlore based bifunctional oxygen electrode (Kannan et al.) 339

Palladium
Experimental investigations of the electrolysis of D_2O using palladium cathodes and platinum anodes (Zahm et al.) 313
In-situ measurements of deuterium uptake into a palladium electrode using time-of-flight neutron diffractometry (Bennington et al.) 323
Photoelectrochemical cells
Improvement of n-Si/SnO_2/electrolyte photoelectrochemical cells by Ru deposits (Badawy) 85
Platinum
Dissociative adsorption of acetaldehyde on Pt (h,k,l) basal surfaces (Cases et al.) 283
Electrochemical behaviour of oxalic acid on platinum electrodes in acidic medium. Pt (100), Pt (111), Pt (110) and stepped surfaces (Orts et al.) 199
Electroless copper deposition on a Pt polyfaceted single crystal (Podestá et al.) 273
Electro-oxidation of methanol on Pt electrodes modified by metal oxides and noble metals (Ohmori et al.) 331
Experimental investigations of the electrolysis of D_2O using palladium cathodes and platinum anodes (Zahm et al.) 313

Kinetics of CO_2 electroadsorption on electrodispersed platinum electrodes in acid solutions (Marcow et al.) 257
Potential-dependent competitive processes on platinum in acid solution in the presence of propargyl alcohol (Arévalo et al.) 245

Polarization curves
A general method of calculating polarization curves for various analytical techniques (Mirkin et al.) 41

Polarographic analysis
Polarographic analysis of mechanisms involving competition between dimerization and electron transfer reactions (Camacho et al.) 61

Polyaniline
Preparation of polyaniline films doped with methylene blue-bound Nafion and the electrochromic properties of the resulting films (Kuwabata et al.) 97

Polybithiophene
Electroactive bilayers employing conducting polymers. Part 1. Suitability of thiophene- and pyrrole-based systems (Hillman, Mallen) 109

Polypyrrole
Electroactive bilayers employing conducting polymers. Part 1. Suitability of thiophene- and pyrrole-based systems (Hillman, Mallen) 109
Redox behaviour of polypyrrole films containing naphtoquinone and benzoquinone groups (Grimshaw, Perara) 125

Polythiophene
Electroactive bilayers employing conducting polymers. Part 1. Suitability of thiophene- and pyrrole-based systems (Hillman, Mallen) 109

Polyxylylviologen
Electroactive bilayers employing conducting polymers. Part 1. Suitability of thiophene- and pyrrole-based systems (Hillman, Mallen) 109

Propargyl alcohol
Potential-dependent competitive processes on platinum in acid solution in the presence of propargyl alcohol (Arévalo et al.) 245

Pyrochlore
A lead–iridium pyrochlore based bifunctional oxygen electrode (Kannan et al.) 339

Pyrrole
Electroactive bilayers employing conducting polymers. Part 1. Suitability of thiophene- and pyrrole-based systems (Hillman, Mallen) 109

Redox catalysis
Redox catalysis when the solvent itself plays the role of an electron carrier. Case of the indirect reduction of aromatic halides in benzonitrile (Simonet et al.) 289

Rough electrodes
Fractals and rough electrodes (de Levie) 1
On the electrochemical response of rough electrodes. Part II. The transient response in the presence of slow faradaic processes (de Levie, Vogt) 23

Ruthenium
Improvement of n-Si/SnO_2/electrolyte photoelectrochemical cells by Ru deposits (Badawy) 85

Selenocyanate
The nature of the catalytic influence of thio- and selenocyanate ions on the reduction process of Fe(II) and Co(II) cations (Winkler, Krogulec) 171

Silicon
Improvement of n-Si/SnO_2/electrolyte photoelectrochemical cells by Ru deposits (Badawy) 85

Slow faradaic processes
On the electrochemical response of rough electrodes. Part II. The transient response in the presence of slow faradaic processes (de Levie, Vogt) 23

Thiocyanate
The nature of the catalytic influence of thio- and selenocyanate ions on the reduction process of Fe(II) and Co(II) cations (Winkler, Krogulec) 171

Thiophene
Electroactive bilayers employing conducting polymers. Part 1. Suitability of thiophene- and pyrrole-based systems (Hillman, Mallen) 109

Time-of-flight neutron diffractometry
In-situ measurements of deuterium uptake into a palladium electrode using time-of-flight neutron diffractometery (Bennington et al.) 323

Tin oxide
Improvement of n-Si/SnO_2/electrolyte photoelectrochemical cells by Ru deposits (Badawy) 85

6-Tolyltriazole
A surface-enhanced Raman spectroscopic study of benzotriazole and 6-tolyltriazol corrosion inhibitors on copper electrodes in alkaline solutions (Aruchamy et al.) 299
Transient response
On the electrochemical response of rough electrodes. Part II. The transient response in the presence of slow faradaic processes (de Levie, Vogt) 23
Tritium
Tritium separation effects during heavy water electrolysis: implications for reported observations of cold fusion (Corrigan, Schneider) 305

Ultramicroelectrodes
Fast cyclic voltammetry at ultramicroelectrodes. Current measurement and ohmic drop positive feedback compensation by means of current feedback operational amplifiers (Garreau et al.) 73
